To Whom It May Concern:

At Romani Group, Inc. we just recently completed a major expansion which included the installation of a new Nortel voice and data network. I must say that out of all the vendors and service contractors I dealt with *Dynamic Communications Southwest* stood out far above any other company- I have finally found a company I feel is worthy of recommending.

The people at *Dynamic Communications Southwest* are the most professional people I've had the pleasure working with. Their work is of the highest quality, their prices are very competitive and their attention to detail is second to none. Their product knowledge and willingness to share information made it very apparent that I was dealing with some of the best and most qualified people in the field.

As a business owner, it is extremely important that my service vendors respond to our building needs at a moments notice. This is why I feel *Dynamic Communications Southwest* stands out from all the others and is, in my opinion, one of the best choices anyone can make when deciding on a telecommunications company.

Sincerely,

Deborah D. Gallo  
Executive Administrator
